## NEWS FROM FRONT

A SOLDIER WRITES OF ARMY AFFAIRS NEAR MEXICAN BORDER.

## REVIEW AT SAN ANTONIO

Last Sunday Was the Greatest Spectacle in U. S. Military History in Time of Peace.

The son of a Maryville mother had a part in the military review at San Antonio, Texas, last Sunday, April 2, which is regarded as the greatest military event of the country in times of peace.

The soldier, who visited his mother in Maryville last summer, has written her of things doing at Fort Sam Houston since he was ordered there recently, on account of the Mexican troubles, under date of April 2, after the great review. It is written in true soldier style, and coming as it does from one who is on the ground and knows what he is talking about, it may be counted on as accurate news.

The letter, an account of the military review, is as follows:

"Yours of the 26th was waiting here for me when we returned from Leon Springs, the 30th. Stayed out two days longer than we had anticipated. While at the Springs we had several military problems, and all participated with the exception of guard, sick and company cooks, so of course I was there. One day we dug what are known as 'standing trenches'—i.e., trenches of sufficient depth that the trench and the parapet of earth removed in digging protect a man in a standing position. As it was a brigade in line of battle our trenches covered a front of over 1,000 yards. We left this camp the morning after a hard rain and the roads were bad in consequence, and as an ultimate consequence there were many stragglers the first day among the raw men, which constitute about half the strength of the regiment. It is 25 miles to the springs and we went out in two marches.

"The day before we returned here we worked out a problem involving the advance through hostile country of a brigade with its necessary supply trains; the attack of the supply train by a simulated enemy, and disposition for defense of the train and repulse of the attacking force. You should have seen that brigade train packing when the attack came. As the train consisted of about 75 wagons, each drawn by a four mule team, it was a sight to see them pack so closely one could scarcely get between wagons and as quickly as four sturdy 'hardtails' could drag the wagons. As Q. M. I am with the train at all times on the march, with the two cooks. That day we made about three miles toward San Antonio and camped. The next day we came in twentyone miles. And only two men fell out of ranks in the 18th. We're sure the hiking kids when we get strung out.

"At noon we halted for one hour and made coffee and served cold lunches. I had my coffee boiler lashed on the tail gate of the wagon with coffee and sugar ready measured in a bag, and a box filled with sliced cold roast beef and cheese outside the lashings on top so that I didn't have to undo my load at all and I was fourth in line for water, notwithstanding we had at least 600 yards to go for it.

"As observers of the maneuvers a St. Col. of the British army and a German Count, who is a major at home, are here. They accompanied our brigade to Leon Springs. The 11th, 15th and 18th Inf. are brigaded together, and constitute the 1st brigade under command of Brigadier General Smith, recently assigned to the brigade.

"We were all glad to get back here and have a chance to clean up, and we had some cleaning to do is what I mean, for the next morning at 8:00 o'clock we stood monthly inspection and muster—clean. I shaved by candle light getting ready.

"The maneuver grounds at Leon Springs is ideal. There is considerable diversity of contour and sufficient timber to make maneuver conditions all that could be desired. A plentiful supply of water made it much more agreeable than Camp Otis, Wyo. But as we were in pup tents, with only such clothing and toilet conveniences as might be carried in blanket roll and haversack, the matter of cleanliness became a serious question.

"I saw many beautiful like oaks, the first I had seen, with great streamers of Spanish moss and flowers. I saw acres of wild sweet williams, so profuse that, swaying to the breeze, they appeared like a lake when the purple twilight shadows of Indian summer fell upon it. Then there were many varieties I had never seen previously. All the wild roses I have seen are pure white, single and very large.

"I enclose clipping giving details of the division review yesterday at 4 p. m. I can say I have marched in the largest review of regular troops ever held in the United States. The clipping is correct in the main, but there is an error as to the number of troops participating. I don't really know how many there were, but the number was at least double that quoted.

"The flat has gone forth from the war department that this division is to be raised to full strength as quickly as possible. That means that instead of feeding sixty men I'll have to rustle chow for one hundred and eight. And still no one knows why. Well, I guess I'll be in at the finding out why, whatever and wherever it is.

"There are hundreds of visitors in camp today and they seem to enjoy the show. I wonder how they would enjoy it if they were the show themselves.

"Have seen a couple of good theaters and one punk one. The good ones were musical farces—"Madame Sherry" and "The Flirting Princess." The poor one, "Delightful Dolly," with Della Fox as leading lady. Tomorrow night begin "The Chocolate Soldier," which is a travesty on army life in some European principality, and although written as of an imaginary and ridiculous army and country, it proved so true to life in their case that the Bulgarians raised a national protest when the play was first produced in France, but they later saw that they were only succeeding in making themselves more sublimely ridiculous, and quieted their protests beneath the cloak of such dignity as remained to them.

"I like San Antonio more and more. Everything is apparently as reasonable in price as in any section of the country, with the exception of real estate, and that's out of sight."

## LECTURE ON CHINA

GIVEN BY DR. REID SATURDAY EVENING.

## TO TALK MONDAY EVE

IN M. E. Church, South, on Corea—Lecture is Free and Should Be Well Attended.

The lecture given by Dr. C. F. Reid at the M. E. church, South, Saturday night was the greatest lecture of the kind ever heard in Maryville.

Dr. Reid is a magnificent speaker and has things to tell that are worth hearing. The information he gave concerning China was worth a great deal to anyone, especially students, and he will lecture again Monday night on Corea in the M. E. church, South, in this city.

The lectures are free to all and no collection is taken. Dr. Reid is the general secretary of the laymen's movement in the M. E. church, South, and he speaks from personal knowledge of his subjects. He is giving these lectures for the purpose of giving information concerning the commercial aspect of things in foreign lands and our relation to them.

His lecture Saturday night on China is much talked of by those who heard him.

Following are a few extracts from his wonderful speech:

"From several points of view China is the greatest nation in the world. In territory there is nothing to be compared to her. In her internal resources she is great. Her iron is more available and can be produced more cheaply than anywhere in the world, and the supply is simply inexhaustible.

"It is estimated by mining experts that if all the coal outside of China was exhausted she could from her mines furnish the world with plenty of fuel for 6,000 years, and her possibilities along agricultural lines are beyond comprehension.

"Her population, 360,000,000, is the greatest of any nation of the world. So great, indeed, that if you proposed to put all the peoples of earth into one line you would have to have every fourth place to be filled by a Chinaman.

"Every fourth baby born into this world looks up into the eyes of a Chinese mother. Every fourth soul that goes out to meet its God is the soul of a Chinaman.

"She is great from a military point of view, and is daily becoming greater. When the war with Japan was fought China was wholly unprepared. She then bought a lot of cast-off German guns, and in supplying her magazines, made the mistake of purchasing a lot of discarded cartridges made for use in another make of gun, and which generally exploded the gun used about the third or fourth time they fired it. This left them helpless before the well prepared Japanese.

"Following that war, however, China established her own gun works under the direction of the most expert gun makers in the world, and now their factories are running twenty-four hours per day, working three shifts of men making guns and ammunition. They will soon have all the equipment needed, and when ready for war will be able to put 50,000,000 soldiers into the field and still leave behind them plenty of able bodied men to support them.

"Our country has reached the point where we are producing more than we use, therefore, unless we find a mart for our products our factories must soon close.

"China has none of these things, but as she awakens she is beginning to ask for them. Two years ago China bought from the civilized nations \$350,000,000 worth of the products of field and factory, and in a few more years will want ten times as much.

"With the great canal completed it will be possible for us to ship the products of the south land and of the middle west direct to them by water, and then we will forget there was ever such a place as Boston.

"Our fair treatment of China in connection with the boxer trouble has made them our warm friends, and a continuation of this course will make a thing marked 'Made in America' bring a premium in China."

Mrs. M. Schmidt of Conception was shopping in the city Monday.

Miss Esther Shoemaker returned Saturday from a six weeks' visit in Kansas City, where she was the guest of her aunt, Mrs. D. F. Boyd.

## ADDRESS BY G. P. WRIGHT

History of Organization Given by E. G. Orear—Services Were Well Attended and Interesting.

The memorial services held by the U. C. T. lodge of Maryville at the M. E. church, South, Sunday afternoon were in memory of Grand Counselor J. C. Shopp of St. Joseph, who died recently. There have been no deaths in the Maryville lodge.

The address of Prosecuting Attorney George P. Wright was finely appropriate and abounded in eloquent passages on the strength and beauty of fraternalism and what it had accomplished to the betterment of society in all periods of the world's history.

The history of the U. C. T. organization by Ed G. Orear was interesting and will be published in Tuesday's issue of The Democrat-Forum.

The talk by C. C. Corwin in regard to the place the U. C. T. occupies to the family of one of its members in time of adversity and death touched the everyday things and met the approval of all, whether a U. C. T. or not.

The burning of the New York capitol put a fiery finish to a prolonged deadlock.

Apparently President Diaz hates to give up his job as bad as a Republican postmaster.

There is an alfalfa grower out in California who no doubt wishes Jack Johnson had been imprisoned long ago.

The Democratic colts in the house at Washington started off nicely and all together. Over in the senate they have been jockeyed so much they couldn't possibly all get off together and the colts were finally flagged.

Are you taking The Democrat-Forum? If not, you'd better hurry and get in the band wagon. All the local news and lots of general news. When you read The Democrat-Forum you get the news and the markets, both at home and abroad.

Have you subscribed to the hospital fund? In the name of suffering humanity come forward with something and let us put in that much needed improvement. Don't wait to be called on. This is a matter that concerns the public in general and no one in particular.

### THE NEWS FROM THE STORES.

The relation of the merchant to his public is much like that of the newspaper man to his audience.

The public, or at least the feminine end of it, picks up the newspaper with as much eagerness to learn the news of bargains and of styles as to see what the army is doing in Texas.

The merchant who does not respond to this demand with a good story about his offerings and values, meets the same fate as the newspaper man who does not know a good piece of news when he meets it on the street.

When advertising fails to attract it is usually because the writer failed to make it newsy. In this spring season there is a human interest story in every retail business, a story of the fleeting caprices of style, of shrewd bargaining by which the merchant has protected his customers, of overstocks that make family incomes go farther.

The public listens, Mr. Merchant! Are you there?

Mr. and Mrs. R. P. Hosmer and daughter and Mrs. Hosmer's sister, Miss Marie Brink, went to St. Joseph Monday in Mr. Hosmer's automobile.

Miss Mabel McCrary of the McCrary Millinery company returned Monday noon from a business trip to Kansas City to buy Easter millinery.

Miss Ethel Hasty spent Sunday with Miss Nell Nunneley, who lives north of the city. Miss Hasty is employed at the McCrary millinery store.

While resting from the egg hunt a geographical guessing contest was enjoyed, and then each tried to "feed the baby" while blindfolded. A large picture of a baby was pinned on the wall and the guests, blindfolded, tried to put something in the baby's mouth. The only one succeeding was Miss Lou Mutz, who was presented a pretty Easter basket for her ability in that direction. A two-course luncheon was served in the dining room by two cousins of the hostess, Miss Ruth Montgomery and Miss Helen Burris of Graham, who were prettily dressed in Alice blue and Helen pink gowns. ## WHY LOOK OLDER THAN YOU ARE?

SOME PEOPLE ALLOW THEIR  
HAIR TO BECOME GRAY  
BEFORE IT SHOULD.

Gray hair is a mark of age, and nothing that can be said as to its beauty will effect the disadvantage of this mark of age set upon your brow.

Wyeth's Sage and Sulphur Hair Remedy darkens the hair and restores it to its youthful beauty. Our grandmothers and their grandmothers before them used Sage and Sulphur for darkening their hair. Nothing has ever been found more effective for this purpose than these two time-honored remedies, but Wyeth, a modern chemist, has combined the two with other ingredients which make a delightful dressing for the hair, and which not only remove every trace of dandruff but promote the growth of the hair as well.

All druggists are authorized to refund the money if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by

## MOTHER IS A SON'S NEMESIS

St. Joseph Youth Killed a Boarder  
in His Home.

### TRIAL IS SET FOR THIS WEEK

While Mrs. Gibson Attempted to Employ Attorneys to Assist the Prosecution, the Slayer Must Depend on Appointed Counsel.

St. Joseph, Mo., April 10.—The spectacle of a mother seeking to have her son put to death or sent to the penitentiary for life is presented here in the case of Livingston Nickell, whose trial for first degree murder is set for this week. Nickell, a young bartender, shot and killed his employer, William Bracken, last November, when Bracken upbraided him for being drunk. Bracken was a boarder at the home of Nickell's mother, Mrs. Josie Gibson, where the funeral of the saloon keeper was conducted, with his slayer's mother as chief mourner.

Nickell has been in jail ever since the killing, and Mrs. Gibson has refused to see or communicate with him. L. C. Gabbert, who had been retained by the bartender to defend him, withdrew from the case, giving as his reason that the defendant's mother and brothers had refused to contribute to the defense fund. Judge Thomas F. Ryan of the criminal court then appointed Frank P. Harl to defend Nickell, but upon a statement by Harl he was excused. Harl told the court he could not serve as attorney for Nickell for the reason that he already had been paid by Nickell's mother to assist the state's attorney in prosecuting her son for the killing of Bracken.

"Some days after paying me a retainer," said Harl, "Nickell's mother and brother told me they had been advised that if it became public that they had hired a lawyer to assist in the prosecution, it might have the effect of creating sympathy for the accused in the minds of the jury, and I was relieved from further duty. Under the circumstances, I could not now serve as attorney for Nickell."

Judge Ryan has appointed two other lawyers to defend Nickell.

### G. A. R. LIBEL SUIT DISMISSED

Charge Against Former Commander Morgan Stricken From Docket.

Topeka, April 10.—The Grand Army of the Republic libel suit, which has been in the courts for several years, was finally disposed of when the court affirmed the dismissal of the suit.

The action was a criminal one, in which Captain P. H. Coney was the prosecuting witness. W. A. Morgan, then department commander of the Republic, was the principal defendant, and there were six others. The charge was that they had circulated a false and slanderous story about Captain Coney to defeat him for national commander.

The first trial resulted in a disagreement of the jury and the court dismissed the case. The state appealed and the supreme court now sustains the dismissal.

### ROADS WIN BIG RATE CASES

United States Judge Decides Against Minnesota Rail Commission.

St. Paul, April 10.—Judge Sanborn in the United States circuit court decided the Minnesota rate cases against the state railway commission.

He held that the necessary effect of reductions ordered was substantially to burden and directly to regulate interstate commerce, to create unjust discriminations between localities in Minnesota and those in adjoining states in violation of the constitution, and to take the properties of the railroad companies without just compensation.

### W. E. HAGAN DIES OF WOUND

Man Shot by John Bramhall While Driving With Latter's Wife Is Dead.

Kansas City, April 10.—William E. Hagan, a wealthy flour dealer of this city, who was shot by John Bramhall, an attorney, died in a hospital here. Learning that his wife was out riding in a buggy with Hagan in Independence, Mo., Bramhall obtained a shotgun, hid behind a hedge and when Hagan drove up shot him twice. After the shooting Mrs. Bramhall went home with her husband. Then Bramhall surrendered to the authorities.

### This Man Is Four Legs Shy.

Trinidad, Colo., April 10.—To lose four legs in exactly the same manner is an experience well calculated to strain credulity, but that is what has befallen Roy Thorpe of this city. Several years ago Thorpe fell from a train while beating his way and had both his legs cut off. He secured a pair of wooden legs. While beating his way from a neighboring town Thorpe again fell under the car wheels and again lost both legs. This time, however, he was uninjured.

### Three Conductors Suspended.

Kirksville, Mo., April 10.—Roby Moore, Peter Merton and J. C. Bunneil, long time conductors on the Quincy, Omaha and Kansas City railroad, have been suspended. They are known widely along the line. The cause of their suspension is not known.

## CONGRESS FACES STORMY SESSION

Four Parties Working at Odds  
on Proposed Legislation.

### UNCERTAINTY IS THE KEYNOTE

Uneasiness Equally Distributed Between Two Major Parties—Sharp Line Drawn Between Conservatives and Progressives.

Washington, April 10.—It is daily becoming manifest that congress is facing a stormy session and there can be made no forecast of the probable legislative results. The fact that both of the great political parties are divided is no longer denied and the leaders appear to have little hope of restoring anything more than surface harmony.

There are virtually four parties, each with a large representation, working at odds in the present session. The Republican minority of the house is divided between regulars and insurgents, as was evidenced by the vote in the speakership contest. The breach between these two factions is even wider in the Republican majority of the senate.

A sharp line has been drawn between the conservative Democrats of the senate, who are opposed to any attempt at dictation by William Jennings Bryan, and the progressive Democrats, including practically all of the new members and several veterans. Like Senator Stone of Missouri, who are Bryan adherents. The house Democratic majority seems to have escaped a break, but the leaders fear the party contest in the senate may at any time spread to the other branch. The situation has interfered with the selection of committees and the beginning of legislative work.

### Much Uncertainty Exists.

Probably there never has been a congress where so much uncertainty existed and where the uneasiness has been so equally distributed between the two major political parties. Of course, this is due, in part, to the fact that in the present congress the Democrats are in power in the house and the Republicans are in control of the senate.

The real cause of the anxiety is believed to be due to the proximity of the party conventions which will select the standard bearers for 1912 and the knowledge that a split by either in the extraordinary session or the regular session to follow may very easily determine the result of the next national campaign.

So far as the administration program is concerned there is no room for speculation. President Taft has recommended the enactment of legislation to carry out the provisions of the Canadian reciprocity agreement, and it is no secret he would be glad to have congress stop at that and defer the question of further revision until the regular session assemblies next winter. His reason for this is that the tariff board will be able to report several schedules by that time.

### Clark's Intention Known.

Neither is there any obscurity about the program of Speaker Clark, Representative Underwood, chairman of the new ways and means committee, and other Democrats who are directing the policy of the house. Their plan for progressive legislation on several subjects with which the country has been familiar in the last year or so has been given out.

The division in the Democratic ranks probably would not have been so pronounced if it had not been for the interview given by Mr. Bryan deploring the election of Senator Martin as minority leader. It throws the issue in bold relief and it is freely predicted it will crop out frequently in debate.

If there is any disposition on the part of the conservatives in both parties to work together to prevent any radical revision of the tariff it is conceded that they will be able to carry out their plans. The progressives of both parties, actuated by the spirit of crusaders, will not hesitate to widen the gulf between the factions in their parties, for they have announced that they are playing for future stakes, and supreme stakes at that.

### SYMPATHETIC STRIKE OFF

Eight Thousand Coal Miners in Ohio Ordered to Return to Work.

Indianapolis, April 10.—Rescinding the order of their predecessors, members of the new executive board of the United Mine Workers of America, which came into office with President White, annulled the sympathetic strike order, sent out by former President Lewis on March 13 to miners in western Pennsylvania and eastern Ohio, but decided to stand by the 2,000 men in the Tuscarawas field, who originally were on a strike. The action of the executive board will mean the return of about 8,000 miners to work.

### Commodore's Funeral in Missouri.

St. Joseph, Mo., April 10.—Commodore Frank Sherman, United States navy, retired, who died at his home in Philadelphia, Friday, was buried here today beside his parents, who were St. Joseph pioneers. Commodore Sherman was appointed a naval cadet at large from St. Joseph by President Grant in 1871.

## 6,000 WOMEN WITHOUT HOMES

Notorious Quarter in Tokyo is Five Swept.

### PALATIAL STRUCTURES BURNED

Five Thousand Houses in Ruins—District Under Special Municipal Surveillance, Japanese Method of Solving Social Evil.

Tokyo, April 10.—The notorious Yoshiwara, the principal quarter of Tokyo inhabited by the licensed hetairae, was destroyed by fire. Many of these houses were almost palatial in appearance, and a thousand of them were burned in a little more than three hours. Six thousand women were rendered homeless. The fire spread over a vast area. Altogether it is estimated that 5,000 houses are in ruins, covering an area of four square miles.

A large number of women were severely injured. Five hundred troops are guarding the territory.

The world-famed Yoshiwara lies about one mile to the north of Asakusa park. The district presented a spectacle probably unparalleled in any other country with its gorgeous structures, guarded by iron bars, directly on the street line, and its thousands of gaily bedecked residents. This whole quarter is under municipal surveillance, with the result that at all times perfect order prevailed, enabling strangers to observe, while walking through the streets, the manner in which the Japanese have solved in their own manner, one of the vexing questions of all the ages.

### Two Hundred Die in Bombay Fire.

Bombay, British India, April 10.—Two hundred men, women and children were burned to death in a fire which destroyed a thatched structure in which they had gathered for a festival. Five hundred persons were in the building. There was only one exit and a panic ensued.

### ROOSEVELT ASKS NO MORE

Not Aspirant For Anything Because He Has Had Everything, He Says.

Spokane, Wash., April 10.—Theodore Roosevelt made his first public declaration regarding his possible candidacy for the presidency at a luncheon given in his honor by the Commercial club.

"I am not an aspirant for anything, because I have had everything," he declared. "No other man alive—I don't know whether I ought to use this simile in the presence of the chaplain, but I am going to take chances—no other man alive has had such a good run for his money."

Mr. Roosevelt declared that he was making his tour for no other reason than that which he has already as signed—to thank the people who had elected him to the presidency.

Had he never come to the west, he said, he never would have had raised his regiment and never have become president. In conclusion, he said:

"It is the service done, not the title of the place held that counts. And you won't, any of you have to puzzle as to my motives if you will accept my statements at their face value. You have not got anything I want except your respect and good will; and all I desire is, so far as the chance arises where I am able to do so, to help you in any movement for the good of our common country."

### FORMER PUGILIST IS MAYOR

John A. C. Mentor Elected by Socialist Votes in Flint, Mich.

Flint, Mich., April 10.—John A. C. Mentor, who was a professional pugilist fifteen years ago, took the oath of office as mayor of this city today and assumed the reins of the first Socialist municipal administration ever elected in the state of Michigan.

"I will give Flint a clean, business like administration," he said. "I am still a fighter—a fighter for good government, a fighter for socialism and the universal brotherhood of man. When I fought in the prize ring it was for glory and a purse. Now I am fighting for a principle. My fight now is with a hostile board of aldermen. Only three of its twelve members are Socialists and I expect we will have difficulty in carrying out our reforms, but we will carry them out if earnest human endeavor will make this possible. Until my term of office expires I will be mayor every minute."

### DIAZ TO USE IRON HAND

Mexican Congress Votes a Four-Million Dollar War Fund.

Mexico City, April 10.—Four million dollars in gold was voted by the chamber of deputies for a war fund for "the pacification of the country." More active operations against the rebels have begun and the "pacification" of the country will proceed with an iron hand.

### Grain Elevator Is Burned.

Elkhorn, Neb., April 10.—Fire which threatened to wipe out the town destroyed Nolte's grain elevator with a loss of \$4,000. Sparks from the burning building were driven over the town by the wind and several minor fires occurred. The citizens were put to their utmost to save the town.

### H. H. KOHLSAAT.

Chicago Editor Who Gave Key to Mystery In Lorimer Scandal.

## TEN LORIMER SUBPOENAS ISSUED

Summons Are Said to Be for Chicago Millionaires.

Chicago, April 10.—Ten secret subpoenas were served by process servers while the Helm Illinois senatorial committee investigating charges relating to the election of Senator Lorimer was holding a secret session in the LaSalle hotel to determine on its actions for this week.

The committee, it is understood, will force ten millionaires to appear and make admissions or positive denials of the charges that a fund was raised to elect Lorimer. Big financial interests are said to have held a secret meeting to discuss the advisability of seeking to bring pressure to bear upon Lorimer to secure his resignation and thus stop the investigation that may involve large interests and cause a popular clamor that might demand a reduction in the tariffs. These big interests are also said to seek to force an early adjournment of the senate and thus kill the Helm committee.

### JOHN D. KEEPS BONDS SAFE

Strong Box Located in Which Rockefeller Treasure Reposes.

New York, April 10.—The long and closely guarded secret where John D. Rockefeller preserved his stacks of stocks and bonds has been disclosed at last. The bulk of his immense treasure of collateral, estimated at \$200,000,000, reposes in a specially constructed bombproof and fireproof vault, built under the northeast corner of the New York Produce exchange. Entrance to it is gained from Beaver street, a stone's throw from the Standard Oil headquarters at 25 Broadway.

On looking in front of the iron vault, the largest of its kind in the world devoted to containing the property of a single person, there is presented to view a cage not unlike the one in which Dreyfus was confined at Devil's Island. Two padlocks, usually opened with a key in the hand of President W. H. Pearson of the Safe Deposit company, turning, release a roll of combination locks and permit the latter to be set by two men from Mr. Rockefeller's private office.

The only way to change the numbers is to know the old numbers. As for the man who opens the upper combination, he has not the slightest knowledge of the numbers opening the combination lock, and neither can set his lock bolts in the great door until the padlocks have been removed by the third man. It is impossible to pick these locks.

### NEWS IN SUNDAY'S PAPERS

The lack of speculation in Wall street has brought hard times to brokers. Many of them cannot make expenses.

General Stanley Williams, deserter from the United States army, was killed in a fight at Mexicali, Mex. Williams' death was caused by a shell that plowed through the head at the base of the skull.

The report is confirmed that Mr. Williamson, British assistant political officer at Sadiya and Lakhimpur, in Upper Burma, and a party accompanying him, were murdered on the border of Assam by Abor savages.

### RIGHTS OF AFFINITIES.

A Texas woman, charged with the murder of her husband's affinity, invokes the so-called "unwritten law" in justification of her act, arguing with inescapable logic that a woman has as great a right to protect the home and avenge its destruction as a man has. The "unwritten law" is often invoked on behalf of a husband; why not on behalf of a wife?

There is no evading such logic, which is not nullified by the equally incontestable fact that no man has the right, moral or legal, to take into his own hands the redressing of his wrongs. If a man has the right to shoot down the spoiler of his home, the wife has the same right. The main point is that neither has such a right, but that it is the duty of society—that is to say, of the law—to protect each with equal vigilance and to punish with equal severity the man and the woman who invade the sanctity of the home. The female affinity is too often the object of a mawkish chivalry. In cases where women affinities are fully aware of the consequences of their conduct they should be held strictly responsible for their work. The divorce trials in almost any large community reek with details of heartless and wholly reprehensible conduct on the part of women who violate the sacredness of other women's homes. To place the whole blame, or perhaps even the greater share of it, upon such women would be unjust, though mistaken "gallantry" has no place in the consideration of the problem. But to place none of the blame upon them is palpably too sentimental.

## BODIES TAKEN OUT IN STREAM

Victims of Banner Mine Disaster Now Placed at 128.

### POWDER CAUSED EXPLOSION.

Rescuing Party Has Narrow Escape When Boiler Accident Shuts Off Air. Victims Are Mostly Negro Convicts. No Mourners at the Openings.

Littleton, Ala., April 10.—With the precision of clockwork, a trained corps of rescuers is bringing a steady stream of bodies from the Banner mine, in which a disastrous explosion occurred. It is believed that 128 is the number of victims, mostly negro convicts.

There is no longer hope of finding men alive underground. Of the 128 dead only fourteen were whites. A score of bodies have been brought up including Lee Jones and O. W. Spradling, both white. The general belief is that powder caused the explosion.

There are practically no mourners at Banner, none of the convicts having relatives near, but a few curious negro women stood around the opening and would break in a low, mournful chant when the bodies were brought up.

The first party of ten government rescuers, headed by Dr. J. J. Rutledge, had a narrow escape from death. An accident occurred to the boiler used for the fans and the air was stopped for a few minutes. Within a few seconds a faint cry for help was heard from below and men with oxygen helmets hurried down. The entire party was overcome by the afterdamp and when brought to the surface physicians worked over them for nearly an hour before they were able to be moved to the rescue car.

### ROADS WIN BIG RATE CASES

United States Judge Decides Against Minnesota Rail Commission.

St. Paul, April 10.—Judge Sanborn in the United States circuit court decided the Minnesota rate cases against the state railway commission.
